

CATALOGUE 2017

unilux
Créateurs de lumière

/ Light and well-being

Light affects people in numerous ways. 80% of our perception is visual and therefore absorbed through light. Yet, light also affects our biological body clock and hence many physiological as well as psychological processes in the human body. Light has an effect on our wellbeing and has been proven to influence our powers of concentration.

For highly motivated and productive people, quality characteristics of light such as light output and changes in colour temperature as well as options of influencing lighting conditions individually are very important.

An individual desk lamp is the solution to meet individual light needs.

Unilux luminaires combine design with intelligence, they offer a large range of functions such as: light dimming, colour temperature choice, automatic switch off after five hours and also light power adjustment according room illumination.

/ Why converting to LED pays off

Development is moving at a rapid pace and the LED is the most significant discovery in the history of light technology since Edison invented the light bulb. LED's are changing the way we light the world!

LED luminaires are exceptionally efficient and offer impressive, outstanding energy and capacity.

- With lower power consumption, they deliver a higher light output than comparable luminaires with conventional light sources.
- They have a long life of 50,000 hours and more. This converts to 250 working days per year, each with 11 hours of operation, an LED lasts for approx. 18 years.

LEDs have no damaging UV or infra-red radiation, do not contain mercury and provide 100% light as soon as they are switched on.

This catalogue presents a selection of the best Unilux LED lamps.

LIGHTING

Bhaus

DESIGN

Architectural

The geometric shape formed by the head and thin aerial arm extending through the to the cylindrical base give the Bhaus lamp a timeless and original design. Bhaus is not just a lamp, it's a stylish addition for any part of the office that will add elegance wherever it is situated. Made in France.

SMART

Unique on the market

Bhaus is equipped with a very powerful LED module of 860 lumens that can be replaced. With its managing system, the lighting of Bhaus varies according to the external daylight. This way it brings the necessary quantity of lighting for an optimum visual comfort and makes it possible to save energy.

It also includes all the options: switch, tactile dimmer, memorization of the intensity settings, automatic cut off after 5 hours without using it.

ERGONOMICS

It is equipped with a diffuser that gives a very comfortable asymmetrical lighting that makes it possible to increase the lightened surface. Using it daily is very pleasant because its movements have a perfect fluidity and the head is adjustable in all directions.

TECHNICAL FEATURES

• Tactile dimmer switch

Under the head/ Variation of the luminous intensity and memorization of the intensity settings

• Movements

Arm and head adjustable in all directions

• Source

- LED (module can be replaced): power 7,5 W
- Lifetime: 40,000 hours
- CRI > 84
- 115 lm/W
- 3200 K

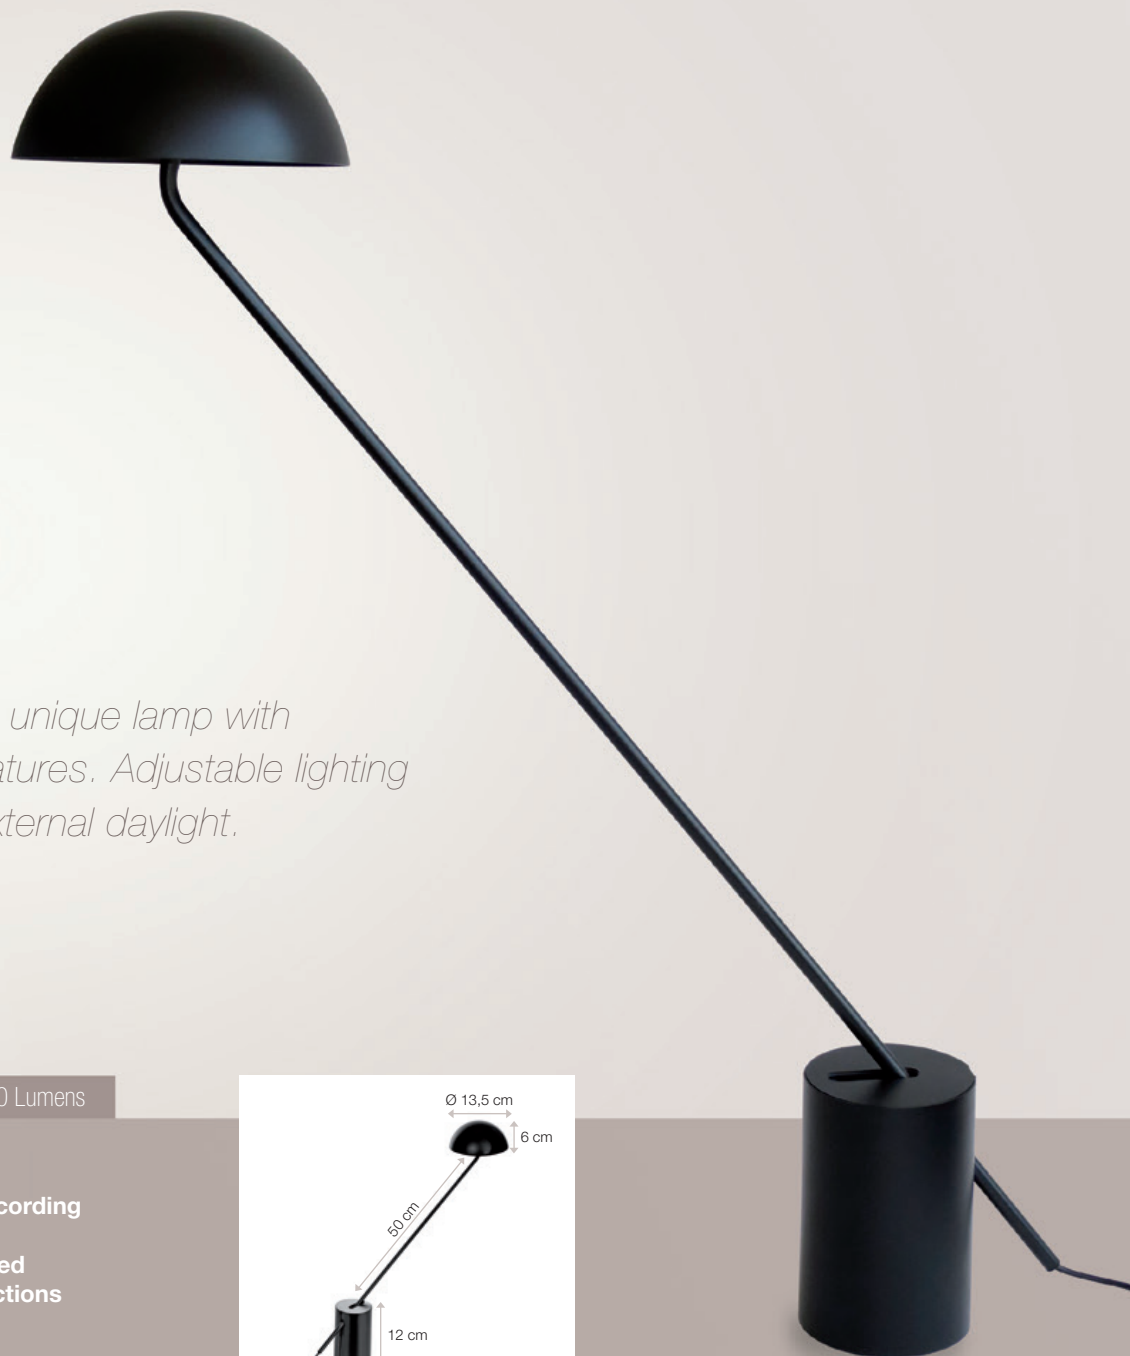

• Driver

Removable on plug

” *Bhaus is an unique lamp with the best lighting features. Adjustable lighting according to the external daylight.*

860 Lumens

- Unique and innovative
- Variation of the lighting according to the external daylight
- LED module can be replaced
- Head adjustable in all directions
- Automatic cut off

Jokerled 2.0

”

*Compact, reassuring shapes,
functional: a best-seller!*

- Modernised best seller
- Module LED can be replaced
- Electric consumption of the driver when the lamp is off = 0 !
- Anti-glare diffusor
- Switch on the base: 70% and 100% of luminous flux
- No danger for the eyesight

PERFORMING

Economic when it's on and off

SWITCHED ON

This new version of the Jokerled 2.0 lamp is equipped with even more performing LED's: they lighten more: 650 lumens and their electric consumption is very low = excellent luminous efficacy of 108 lm/W.

SWITCHED OFF

Transformers used for most LED lamps always consume a small amount of power, even when the lamp is switched off. The Jokerled 2.0 transformer does not consume any electricity when the lamp is off.

ADVANTAGE

The LED module can be replaced as easily as a bulb.

LIGHTING QUALITY

Comfort and wellness

Jokerled 2.0 provides a warm lighting which is diffused to make it pleasant and better for the users eyesight.

DESIGN

Modernised version of a best seller

Jokerled 2.0 was restyled by the famous French designer internationally known Patrick Jouffret. He perfectly managed to modernise the lines by keeping the rounded shapes and harmonious proportions that made it a very successful lamp. Jokerled 2.0 is an essential model that will perfectly fit any office. Made in France.

TECHNICAL FEATURES

• Variator switch

- On the base
- 3 positions: Off, 70% and 100 % of luminous intensity

• Movements

- 2 articulations: head and arm adjustable

• Source

- Integrated LED (module can be replaced): power 6W
- Lifetime: 40,000 hours
- CRI > 92
- 108 lm/W
- 2900 K

Illusio

”

*Smart, powerful perfectly
suitable, for Managers.*

TECHNICAL FEATURES

- **Tactile dimmer switch**

Under the head
Dimming of the light intensity
and memorization of the intensity
adjustment

- **Movements**

2 articulations: tilting head and arm

- **Source**

- LED built-in (cannot be replaced):
rated power 6,5 W
- Lifetime: 40 years
- CRI > 82
- 93 lm/W
- 3100 K

DESIGN

Nice and functional

The « trompe-l'oeil » effect of the cable that gets out of the head and seems to run in parallel alongside the arm give the Illusio lamp a trendy look that everyone likes immediately. The lamp is turned on and off very easily thanks to the tactile dimmer-switch located under the head. The moving fluidity enables to adjust the lamp easily according to your needs. Made in France.

HIGH-PERFORMANCE

Illusio is equipped with powerful 602 Lumen LED's that not only provide a strong light source but consume very little energy and last 40 years.

SMART

Fitted with all options:

- Tactile switch with dimmer.
- Memory for different intensities
- Automatic switch-off after 5 hours without use: safe and economical

602 Lumens

- Design and powerful
- Tactile dimmer-switch
- Automatic switch off
- Memorization of intensity adjustment

Jack

” *Young, dynamic,
the trendy desk lamp.*

TECHNICAL FEATURES

ERGONOMIC

Trailor made lighting

Jack is equipped with a very efficient 6W LED light source. A tactile switch located on the base lets you choose between 4 lighting intensities and 3 colour temperatures that correspond to different activities:

- Working
- Reading
- Relaxing

USB CHARGER

Product benefit

Jack is equipped with a USB port to charge smart-phones. USB cable not included.

DESIGN

Simple and elegant

The elliptical shape of the head increases the diffusion of the light onto the work surface. Compact and articulated it will fit perfectly in any office.

600 Lumens

• Switch

Tactile, 4 lighting intensities and 3 levels of colour temperature

• Movements

Head and arm adjustable

• Source

- LED built-in (cannot be replaced): rated power 6 W.

- **Switch**

On the head: On/Off

- **Movements**

Arm moveable with 3 positions,
swivelling 360° on it's base.
The head revolves in all directions.

- **Source**

- LED built-in (cannot be replaced):
rated power 5,6 W
- Lifetime 40 years
- CRI > 80
- 109 lm/W
- 3500 K

- **Transformer**

Removable on plug

MONEY-SAVING

- Good luminous efficacy: 109 lm/w = good lighting for a low energy consumption.
- Half the energy consumption of a fluorescent lamp = real electrical cost savings.

QUALITATIVE

Mambo provides a quality lighting: powerful and warm. It is equipped with a diffuser enabling a better sharing out of the light on the work surface.

ADAPTABLE

The double-articulated arm which is equipped with balance springs also rotates, making it possible to adjust the lamp in all directions. Supplied with a base and clamp.

- Double articulated arm
- Anti-glare diffusor
- Supplied with base and clamp

456 Lumens

Success 80

Chromium version

LED LIGHTING

Low consumption and high performance.

Success 80 is fitted with a high performance 1000 Lumen LED bulb, which requires very low electrical consumption. The inside of the ventilated shade is coated with an enamel paint to give better reflection of light. Source's lifetime: 30,000 hours.

DESIGN

Top of the range lamp

A timeless and universal design which has been popular and successful for decades. This chromium plated version is "top of the range". The lower arm consists of three metallic tubes ensuring solidity and great stability.

ERGONOMICS

Adaptable

The double-articulated arm which is equipped with balance springs also rotates, making it possible to adjust the lamp in all directions.

TECHNICAL FEATURES

- **Switch**
On the head: On/Off
- **Movements**
 - Articulated and rotating arm
 - Adjustable head

Removable on plug

LED LIGHTING

Sol lamp is equipped with integrated LED's which provide a very high lighting quality.

TIMELESS DESIGN

Sol allies simplicity with a modern design. The shape of the head gives a greater diffusion of light onto the work surface.

COLOURS AND FUNCTIONS

Sol is available in 4 different colours and the flexibility in the top of the arm makes the head easily adjustable in all directions.

- Flexibility and design
- Available in 4 colours

400 Lumens

Terra

DESIGN

Thin lines

Terra lamp has got a recognizable design with thin and uncluttered lines. Terra's head is no more than 1 cm thick which gives it a very elegant appearance.

ECONOMICAL

With intensity variation

It is equipped with high performance LED's that require low energy consumption. Terra also offers 4 lighting intensities so that everyone can adjust it according to their needs throughout the day. The tactile dimmer switch is located on the base.

DIFFUSION

Optimal diffusion

Terra lamp ensures a perfect lighting diffusion with the Edge LED technology: no glare and better visual comfort.

TECHNICAL FEATURES

• Tactile switch

- On the base
- 4 intensities

• Movements

- Tilting arm
- Swivelling on the base
- Adjustable head

• Source

- LED built-in (cannot be replaced):
rated power 5 W
- Lifetime: 20,000 hours
- CRI > 80
- 100 lm/W
- 3500 K

”

With its 4 lighting intensities, Terra is a practical lamp very pleasant to use daily.

500 Lumens

- Economical and functional
- 4 lighting intensities
- Adjustable arm and head

RECEPTION

Available in 5 colors

FIL

FUNCTIONAL

High load capacity

FIL double coat pegs are designed and made in France. Their ABS frame and shiny Cicolac enables them to support up to 50 kg.

DESIGN

Double grip

FIL double coat pegs are robust and aesthetically pleasing. Their rounded shape was designed to protect the clothes and cause minimal creasing. Timeless with smooth lines.

KEY SELLING POINT

Fixing kit

FIL coat peg is provided with its own fixing kit containing screws and wall plugs to suit every surface.

TECHNICAL FEATURES

- Each coat peg = 2 grip
- Support up to 50 kg max

• Size cm

- 2 coat pegs : H 14,6 x L 23
- 3 coat pegs : H 14,6 x L 37,8

Available in 5 colours

MAGNETIC FIL

FUNCTIONAL

Installed in a few seconds

Magnetic FIL coat pegs adhere to any metal surface thanks to their ferronickel magnet and do not require any drilling. This also means they can be shifted at will.

DESIGN

Protective coat peg

FIL coat pegs are robust and aesthetically pleasing. Their rounded shape was designed to protect the clothes and cause minimal creasing. Timeless with smooth lines.

KEY SELLING POINT

Optimum lift

Made in France. Their ABS frame and shiny Cicolac enables them to support up to 12 kg. The magnetic fixing has an anti slip cover to protect metal surfaces.

TECHNICAL FEATURES

- Magnetic coat peg
- Support up to 12 kg
- Respect clothes

• Size cm

- L 8 x H 10

Magnetic Steely

FUNCTIONAL

Easy to install

Magnetic STEELY coat pegs can be attached to any metallic surface and require no drilling, so you can move it whenever you want to. Made in France.

DESIGN

Protective coat peg

Magnetic STEELY coat pegs are made from 4 mm thick metal coated with plastic. The addition of the rounded, rubber, non slip pads prevents garments from slipping or becoming creased.

ADVANTAGE

Powerful magnet

The very powerful magnet makes it possible to support up to 12 kg without falling down or slipping.

TECHNICAL FEATURES

- Size cm
L 6,8 x H 14,8

- Magnetic coat peg
- Discreet and easy to move
- Support up to 12 kg

Flora

FUNCTIONAL

Functional coat stand equipped with revolving head with 6 coat pegs. The revolving head enable to put in the angle of an office ensuring the access of the clothing. Fitted with a height adjustable umbrella stand, capacity of 9 umbrellas, large drip tray.

PRODUCT'S ADVANTAGE

The curved shape of the coat pegs insures perfect hanging of garments. A hole in the top of each peg allows the user to attach garments on coat hangers, while 2 hooks on each side of the pegs make it easy to hang scarves, jackets....

TECHNICAL FEATURES

- **Maximum capacity**
6 coat pegs & 12 hooks
9 Umbrellas
- **Movement**
Revolving head

Very stable: base 6 kg

- **Easy to assemble**
- **Many possibilities to hang clothing**

Bouquet

FUNCTIONAL

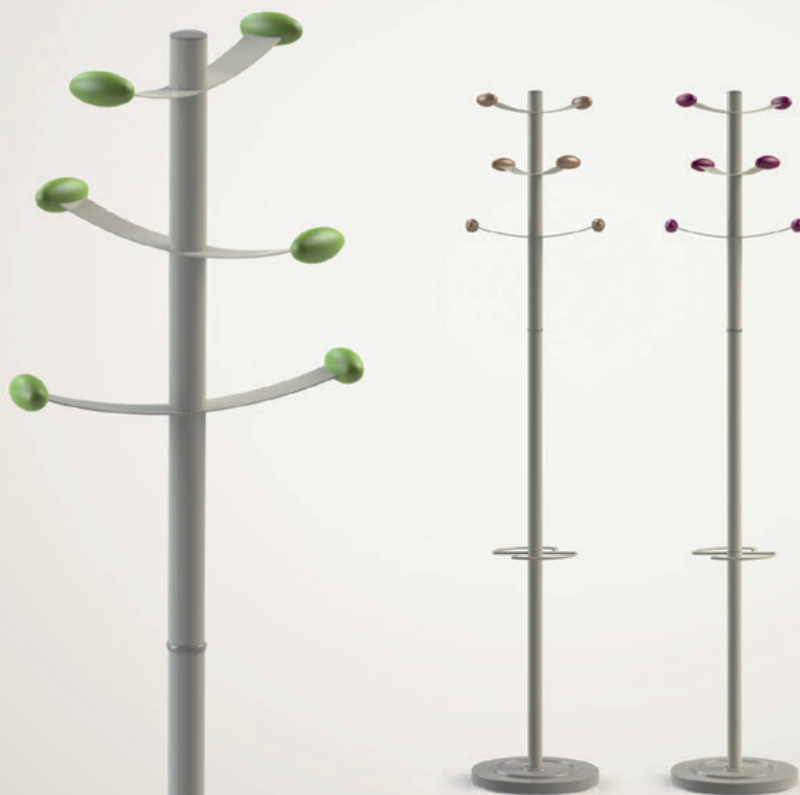

Optimal storage capacity

BOUQUET coat stand is equipped with 6 coat pegs positioned on alternating gridlines on a 3.5 cm mast made of high quality steel: clothes do not overlap. Weighed base of 4 kg ensures steadiness of the structure and makes it possible for the BOUQUET to be placed in an open space without any danger. BOUQUET is equipped with a steel umbrella stand. Capacity: 8 umbrellas + drip tray.

DESIGN

Protective coat pegs

BOUQUET wooden coat pegs have a rounded shape and preserve the integrity of the clothes they support.

TECHNICAL FEATURES

- **Maximum capacity**
6 garments, 8 umbrellas
- **Dimensions**
183 cm x Ø 33 cm

→ Charming, robust
and new colours!

Accueil

FUNCTIONAL

Robust and practical product

ACCUEIL coatstand is made of a 175 cm-mild steel post. It is equipped with 8 offset rounded coat pegs to facilitate the hanging. The revolving head enables to put it in the angle of an office or against a wall whilst ensuring the access to the clothing.

DESIGN

Protected clothing

The rounded coat pegs reassure and give to ACCUEIL coat stand this very familiar look which makes it successful. They are equipped with anti-skid edges and have been designed to avoid misshaping the clothes. The coat pegs are reinforced and made in united cast in one piece.

THE ADVANTAGES

The must have

Accueil is equipped with an umbrella stand adjustable in height. Capacity: 9 umbrellas and a drip tray. A 6kg-weighted base ensures the steadiness of the product.

TECHNICAL FEATURES

- **Maximum capacity**
8 garments, 9 umbrellas

- **Movements**
Revolving head, height adjustable umbrella stand

- **Timeless best-seller**
- **Robust and solid**
- **Revolving head**

Extend

ADVANTAGES

Adjustable

EXTEND is very easy to mount and to handle. It has a width-adjustable transversal bar. This garment rack is very practical as it is also adjustable in height. Can support up to 40 hangers.

TECHNICAL FEATURES

- **Movement**
Mounted on rotating wheels
- **Size cm**
H: 102-166
W: 80-150

→ Width and height adjustable

FOOT RESTS

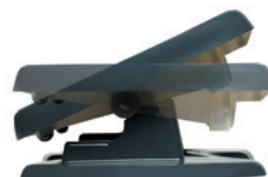

Nymphea

ERGONOMICS

The use of foot rests helps to avoid muscle strain, cramp and fatigue in the legs. It helps to improve your posture and circulation by keeping feet and legs elevated. The EU Directive 90/270/EEC recommends for VDU workstations that "a foot rest shall be made available to any operator or user who wishes one." Ergonomic concept developed in association with the Industrial Medicine. Made in France.

Adjustable in height from 8 to 20.
Adjustable tilt 0 to 20°

Chrysalis

FUNCTIONAL

Non skid surface. The platform tilt can be adjusted to any desired angle which enables optimal support for the user's legs.

TECHNICAL FEATURES

- **Dimensions**
W 42 x D 32 cm

→ **Recommended
by the industrial
medicine**

Adjustable tilt

10°

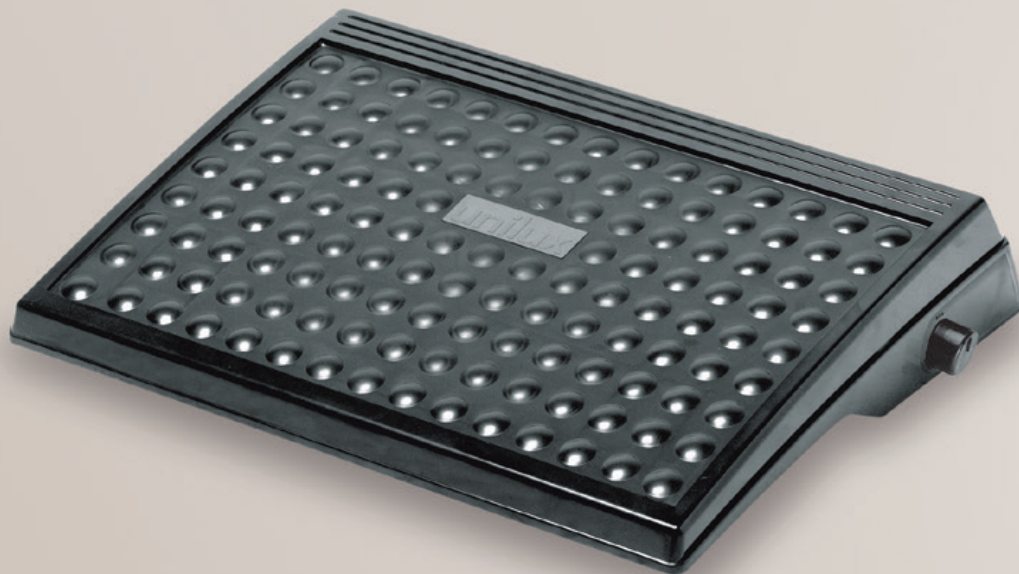

15°

20°

Bio

ERGONOMICS

The EU Directive 90/270/EEC recommends for VDU workstations that "a foot rest shall be made available to any operator or user who wishes one." Complies with the norm ISO 9241-5 relating to Ergonomic requirements for office work.

FUNCTIONAL

Top surface made of half PVC spheres which exercise a real relaxing massage. Tilt adjustable (10°, 15°, 20°), it enables an individual setting according to the user's morphology. The use of foot rests helps to avoid muscle strain, cramp and fatigue in the legs.

PRODUCT ECO-FRIENDLY

Low ecological impact: 83% Post-consumer recycled content.

TECHNICAL FEATURES

- **Materials**
Post-consumer recycled content
- **Dimensions**
W 42 x D 32 cm

- **83% Post-consumer**
- **Adjustable 10, 15, 20°**

Chocolate

ERGONOMICS

The use of a foot rest avoids muscle strain cramp and fatigue from the legs. It improves your posture and circulation by keeping feet and legs elevated. Ergonomic concept developed in association with the Industrial Medicine.

FUNCTIONAL

Chocolate can be adjusted in height from 10 to 16 cm and inclination from 0 to 25°.

MOVEMENTS

The platform height can be adjusted very easily by turning it around the base with feet.

TECHNICAL FEATURES

- **Materials**
 - Polypropylène
 - Pads made of non-skid PVC
- **Dimensions**
W 42 x D 32 cm

Easy to adjust with your feet:

- Adjustable tilt
0 to 20°

- in height:
8 to 20 cm

- **Recommended by the industrial medicine**
- **The easiest to adjust**

CLOCKS

Bio

” *The Bio clock is not only silent,
it also preserves the natural resources:
it was time to switch to the time of Green!*

ECO-FRIENDLY PRODUCT

Made of non-fossile materials

60% of the plastic parts of this wall clock come from post-consumer materials. Its design contributes to preserve the natural resources for the future generations. Eco-responsible approach! Kraft packaging.

SILENT MOTION

Quiet and zen!

Thanks to its silent system, the second hand of BIO doesn't make any noise, creating an environment favourable to concentration and well-being.

QUARTZ SYSTEM

High precision

The mechanism of quartz clock, based on the phenomenon of piezoelectricity, is one of the most energy-efficient, for a reliability of a 1 second discrepancy over a 6 years running period.

TECHNICAL FEATURES

- **Materials**

Made at 60%* of non fossile and renewable materials

- **Energy**

Battery 1 x AA 1,5 V (not supplied)
Average consumption: 0,19 mA

- **Size**

25,5 cm

- Can be read easily from a distance of up to 25 metres
- Silent clock

*36% of the finished product

Oracle

WEATHER FUNCTION

Thermometer and hygrometer

The dial of ORACLE clock is equipped with two indicators of temperature C°/F° and hygrometry (indoor humidity level) allowing to know easily the ambient of your workspace.

SILENT MOTION & PRECISION

The hands move do not make any noise. Thanks to its silent system, the second hand of ORACLE does not make any noise which creates an atmosphere particularly favourable to concentration and wellness. Its quartz mechanism – piezoelectricity – is both reliable and economic.

DESIGN

3 colours available

ORACLE comes from the convergence of a classic design and strong colours.

” *Silent clock with double indications: temperature and hygrometry.*

TECHNICAL FEATURES

- **Energy**
Battery 1 x AA 1,5 V (not supplied)
Average consumption: 0,31 mA
- **Size**
30 cm

- **Weather clock**
- **Silent clock available in blue, orange or anise green**

Instinct

DST SYSTEM

High precision

INSTINCT clock mechanism enables automatic winter and summer time changes. No need to take off the clock to do it manually, INSTINCT is automatically adjusted on time. Equipped with high precision quartz movement.

INTEGRATED DATER

Appreciated option

With the diameter of 30,5 cm, INSTINCT is very easy to read. A numeric dater is incrusted in the outline and indicates as follows: day/date, date/month or hour/minutes.

DESIGN

Sober

With the metallic grey dynamic outlines and the big Arabic numerals, INSTINCT fits any workplace. Equipped with a second hand.

” *Ideal for offices which can't use
Radio Controlled Clocks.*

TECHNICAL FEATURES

- **Energy**

Battery 1 x AA 1,5 V (not supplied)
Average consumption: 0,14 mA

- **Size**

30,5 cm

- **Automatic summer/winter time changes - DST technology**
- **Effortlessly readable up to 30 metres**
- **Numeric dater**

Wave

”

High Precision.

SMART CLOCK

Radio-controlled technology

Forget approximatively clocks: WAVE is automatically and permanently adjusted with radio waves from Mainflingen atomic clock. High precision: 1 second of difference maximum every 1 million years.

DESIGN

Easily readable

WAVE has got a 30,5 cm of diameter. The big Arabic numerals are easily readable wherever you are in the room. A protective glass avoids dust and yellowing due to sun exposure. Fitted with second hand. Available in two colours: black or metal grey.

TECHNICAL FEATURES

- **Energy**
Battery 1 x AA 1,5 V (not fitted)
Average consumption: 0,37 mA
- **Size**
30,5 cm

- **Precision clock, Radio-controlled system***
- **Readable up to 35 metres effortlessly**

* Warning! Radio-controlled clocks cannot work in buildings with metallic structures
