CATALOGUE 2017

ELBA : GREAT DESIGNS THAT MEETS THE NEED IN ARCHIVING AND ORGANISATION

Tedious, repetitive, and even painful, archiving files is perceived as an uninviting task. Archiving is a constraint that consumers want to be exempt.

However, a «bad archiving» can have unfortunate consequences:

- Lose a document or spend time finding it
- Not be able to manage the incessant influx of information

... as many nuisances to the serenity and hindrances to the availability of spirit.

Concerned about the well-being of users,
Elba wishes, by its expertise and innovations, to infuse a new wind:

➤ ORGANIZING PERMITS YOU TO RETURN THE FREE SPIRIT.

From now on, the promise of the brand
can be summed up soberly:

➤ ELBA : BETTER ORGANIZED, FREER.

ELBA brings benefits to its consumers in terms of saving time, efficiency and peace of mind and makes it possible to return a positive image to oneself and to its surroundings.

Through its logo, the graphic identity of ELBA conveys both the concepts of modularity and structure - an organization that each builds according to its needs - as well as the notions of clarity and fluidity - an organization facilitated by intuitive solutions

When the archiving gives way to the organization, the brand can then launch its watchword to all its publics:

DO NOT STORE, GET ORGANIZED. ELBA
